

AFRA OSAMA

ARCHITECT · INTERIOR DESIGNER

*Merging structural integrity
with aesthetic soul.*

Saudi Arabia | 2026

Merging *structural* integrity with *aesthetic* soul.

Based in the intersection of functionality and art, Afra Osama approaches every project as a unique architectural narrative. With over a decade of experience in residential and commercial spaces, she has developed a signature style characterized by clean lines, natural textures, and a masterly play of light.

Her philosophy is rooted in the belief that a well-designed space is not just seen, but felt. From the initial conceptual sketch to the final interior detail, Afra ensures that every element serves a purpose while contributing to an atmosphere of timeless sophistication.
